AT HIS OLD TRICKS AGAIN.

The editor of The Alliance Times, Bull J. Sallows, apparently loses no opportunity to place the editor of The Alliance Herald in an unfavorable light. Bull cares not that he has to juggle with the truth in his mud slinging attempts, and he does not stop at threats of all kinds when the light of publicity is thrown on his personal misdeeds, of which the list is long and black and interesting. At times we have been impelled by pity to leave poor Bull alone and to save the long suffering public, but in fairness to all concerned we at times must again bring out the searchlight of pitiless publicity and cast it upon his slimy pathway.

In The Alliance Times of Tuesday the following statement appeared: "Lloyd C. Thomas, editor of The Herald, made a second personal appeal to the district board after they had sustained the action of the local board in placing him in Class 1, and the local board has been instructed to send his papers back to Omaha. He remarked that he has secured a Class 2 rating, over the two former decisions."

We wish at this time to brand the above statement as a barefaced, unqualified falsehood, insofar as it refers to our personal appearance before the district board. We have not personally appeared at any time before the district board and we do not

know in what class we will be placed. We are perfectly willing to abide by the decision of the district board. We do wish to say, however, that we believe that the earnest wishes of Bull and his fellow members of the "Hindenburg line" in Alliance to get us out of the way before election in order that they might have a better chance to grab the potash resources of the state of Nebraska at the next session of the legislature will not be granted.

Furthermore, in order to show where we stand on the question of military service, we now pledge ourselves that irrespective of the classification given us by the district board at Omaha, we will, at the close of the next session of the legislature, volunteer our services to Uncle Sam and join the other five "Thomas Boys" who have preceded us in the service of their country under the colors. It is the earnest desire of each and every one of the six "Thomas Boys" to make the Thomas family a one hundred per cent family in the service.

There is work to be done in Nebraska in ferreting out many of the sleek faced "patrioticks" who openly boast of their patriotism but who at heart are blacker than the ace of spades. We intend to do our part in helping show up a few of these men before we leave for the training camp. LLOYD C. THOMAS.

MORE SALARIES FOR TEACHERS.

During war times the cost of living has been rapidly increasing—by leaps and bounds. The wages of all laboring men and women and practically all of those who have been living on a salary have of necessity been increased. Only in this way have they been able to make a living and clothe and feed themselves.

But the teacher in our public schools, working under contract for from \$65 to \$90 per month, for nine months per year, has been feeling more and more the pinch that comes when the monthly check fails to cover the necessities of life. The children picking potatoes in the fields of Box Butte county today are getting \$5 per day and board. Women, in overalls in our railroad shops, make as high as \$140 per month wiping engines.

In Alliance it has simply come to the proposition of giving the teachers more money. The members of the school board realize this and want to assist the teachers. They however, face the fact that levies have been made to the limit under the law. However, we believe that keen, capable business men and women who compose this board, will find a way out of the dilemma and be able to pay our hard working, faithful teachers wages which will enable them to at least pay expenses and to each buy a Liberty Bond, for we know that every teacher in the Alliance schools would prize a Bond, be it only a little one—above all else.

Paul Renner of Madison, Nebraska owner of several quarters of fine Box Butte county land, was in the city on Saturday. Mr. Renner has owned his land here for the past ten years.

GET ACQUAINTED WITH YOUR BODY

A great deal of physical distress is the result of an interference with Nature's way to keep the body in health. For this reason the more one knows about the body the better chance there is to resist disease and enjoy health.

The human structure is so constituted that it is unnatural for disease to creep in. The nerve system is designed to give health to all organs and keep them in repair. But Chiropractic, that wonderfully successful drugless health science, has discovered that disease of any part of the body, headaches, stomach trouble, rheumatism, etc., is due to an interference with the flow of nerve energy to these affected organs, caused by the pressure of the bones of the spine on certain nerves. The Chiropractors detect defects in the spine and by scientific adjustments relieves the pressure and removes the cause of the trouble.

When the distribution of energy is restored to normal, the weak and diseased organs are again supplied with power and the natural healing forces build up and strengthen them. Health follows naturally. Every progressive, thinking man and woman should know about

CHIROPRACTIC
 The Better Way to Health

and learn more of the mechanics of the human body. Such knowledge will be a great benefit now and in the future, and especially when illness threatens. Chiropractic (KI-RO-PRAK-TIC) has helped thousands back to health and strength, and it will help you and your loved ones and friends. Information gladly given.

HEAR THIS CALL
 from **OUR HOME TOWN BOYS**
OVER THERE

LETTERS from our boys in the trenches and from the women in canteen and other war work, all bring to us the same message—SEND US NEWS FROM HOME.

World news is all right, but OUR BOYS want NEWS OF THIS TOWN. They want the home newspaper. Publishers are prevented from sending their papers free to anyone, even boys in the service. Consequently a national movement has been started by Col. William Boyce Thompson of New York, who is acting as President of the Home Paper Service of America to give the boys what they are calling for. Every community is joining the movement. Let us see that our boys are not forgotten.

Send to the publisher of this newspaper whatever amount of money you can—5 cents or \$50.00. We will publish a list each week of those contributing, and the amounts contributed.

Every cent received will be used to send this paper to our boys at the front. If at the end of the war, there is any surplus, it will be turned over to the local Red Cross Committee.

There is no profit in this to the publisher—even in normal times, subscriptions are not sold at a profit. With war prices prevailing, and the high rate of postage on papers sent to France, our cost will scarcely be covered by our full subscription price.

Remember that over in France, some brave soldier or sailor from this town—perhaps even some splendid woman working within sound of the guns—is depending on you to "KEEP THE HOME LOVE KINDLED."

They are calling to YOU from "Over There"
